

Grupo de Bullet

A Colombian Mineral Exploration and Development Company

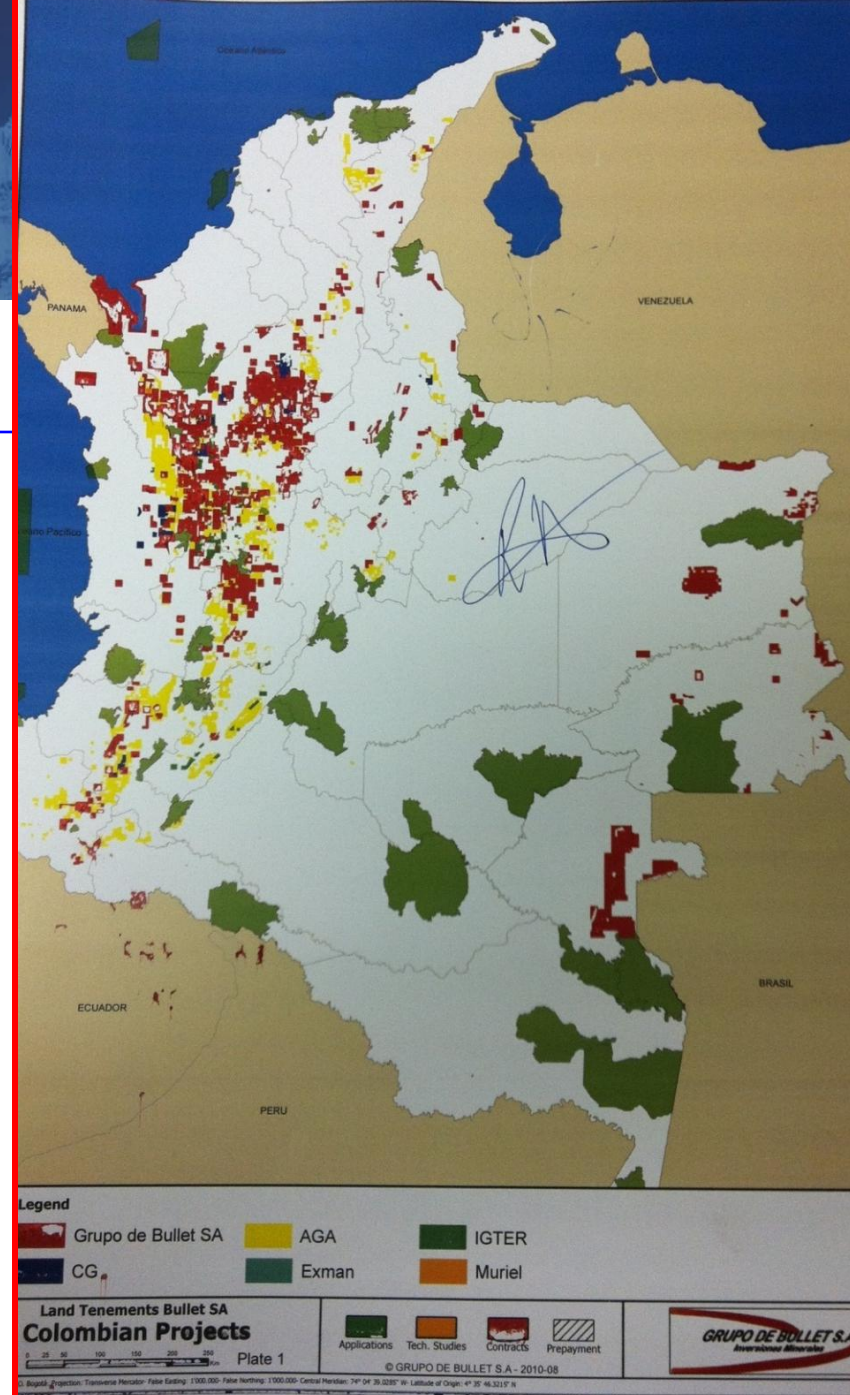

2019

Grupo de Bullet

Properties

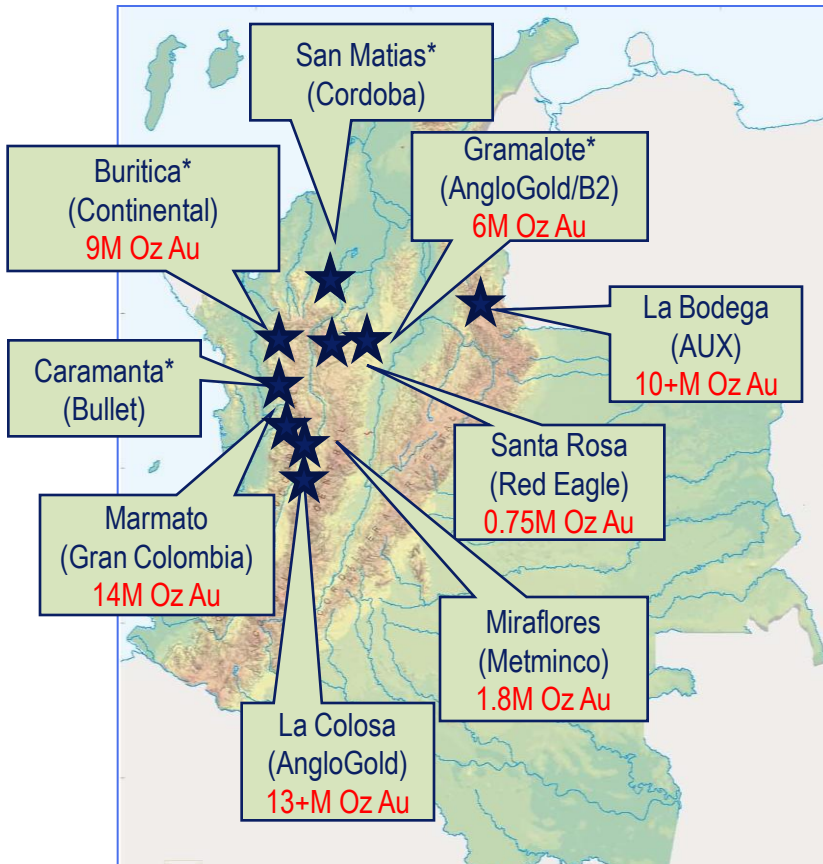

Grupo de Bullet has been active in exploration and mining in Colombia since 1984 and has contributed all or some of the land package to several of the country's most successful and well-known exploration companies and currently maintains a portfolio of over 300 mining titles. Grupo de Bullet properties include gold, copper, iron ore, manganese, coal, rare earth elements, as well as aggregates in 15 of Colombia's 32 departments.

To the Right: The mapped areas in red belong to **Grupo de Bullet**, followed by AngloGold Ashanti in yellow, as the second largest title holder in Colombia.

Grupo de Bullet

Grupo de Bullet: Colombia Mining Experience

Track Record in Colombia Since 1984

- ❖ Entered the country in 1984, 20 years prior to AngloGold Ashanti, the first major gold miner in the country
- ❖ Operated several medium scale producing mines and explored for large scale deposits
- ❖ Main mines operated include: El Limon, Buritica, Bramadora, Vesuvio, Lastera and Morena
- ❖ Made significant discoveries and partnered with middle and top tier producers to further explore and develop them
 - Buritica, Berlin – 100% Grupo de Bullet (JV'd with Continental Gold)
 - Gramalote – 100% Grupo de Bullet (JV'd with AngloGold Ashanti and B2Gold)
 - Caramanta – 100% Grupo de Bullet (JV'd with Solvista Gold)
 - Cordoba Porphyry District – 30% Grupo de Bullet (JV'd with Cordoba Minerals)
 - Marquesa – 100% Grupo de Bullet (JV'd with Trident Gold)
- ❖ Other Grupo de Bullet joint ventures include:
 - Antioquia Gold
 - Colombia Crest Gold
 - Red Eagle - The first modern large scale permitted gold mine in Colombia (Now Producing)
